# About OkeyToGo

With over 16 years of experience, we turn visions into dynamic web and software solutions in record time. OkeyToGo is a trusted technology partner to quickly design, develop, integrate, test and deploy high-quality custom applications.

## Our mission

Implement in our Clients powerful servers and apps provided with pre-defined modules to save 3 years of development and that requires all personalized software, allowing our clients to start using their system from day one.

## Our core values

- » Offering valued services to all stakeholders
- » Genuine Interest and trustworthiness
- » Teamwork towards a common goal
- » Empowerment and transparency across the organization

## Our team

Our management team has more than 16 years of combined expertise in consulting, software development, DevOps, cloud computing, outsourcing, and premium staffing.

## Our vision

Provide the first technological solution for small businesses that allows the development of customized software in record time.

ABOUT US

# KICKOFF PLAN

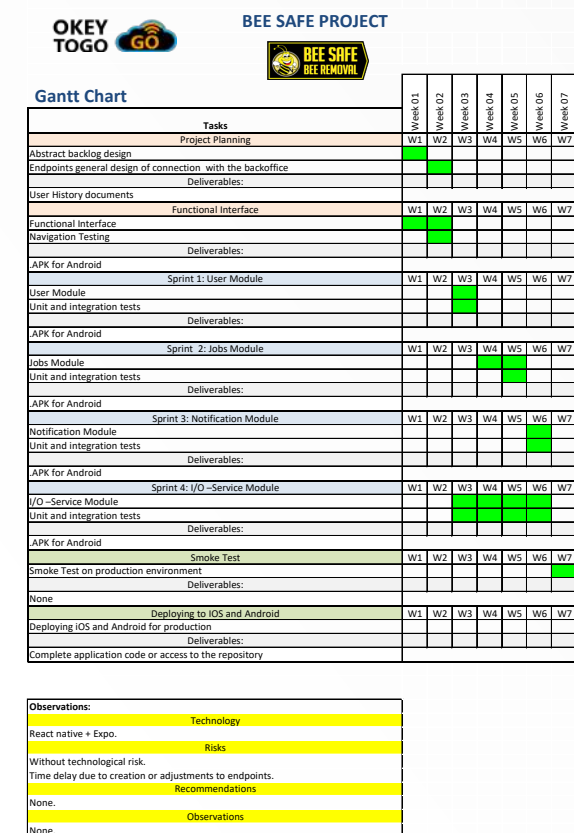

The kickoff plan is based on developing your system from scratch. It begins with the generation of 3 documents that make up the initial planning of the project:

## Use Case Diagram

Analysis of use cases that guarantee the scope of the project

## Gantt Chart

Gantt chart to establish partial deliveries and complete development time from day 1

## Quote
